- **Expert guidance** from our experienced and knowledgeable team.
- **Holistic security** with our well-rounded approach to cybersecurity.

PCI DSS Services

Prepare for Upcoming Changes in:

The PCI DSS global standards for protecting account data are evolving to combat emerging cybersecurity threats. While the revised standards offer enhanced opportunities for securing your customers' data, the implementation of the new requirements may pose a substantial and challenging undertaking for your organization.

Experience the expertise of ProCern Technology Solutions' team as we guide you through the transition. Our team is well-versed in the upcoming changes for PCI DSS 4.0.1. We can help determine what adjustments your organization needs to make to adhere to PCI DSS 4.0.1 compliance requirements. With former QSAs on our side, our team has the expertise to support you in your journey to achieve and maintain PCI compliance. We can do this by coaching your team on new requirements, facilitating audit preparation sessions, and guiding your team through audits.

Additionally, our team can help devise strategies to reduce your PCI scope and compliance burden to help you diminish operational costs while reducing the risk of breaches. With our QSA experience, Risk Management experience, and experience assisting Fortune 250 companies through PCI audits, ProCern is here to safeguard your customer's cardholder data and assist you through your transition to PCI DSS 4.0.1.

What to Expect From PCI DSS 4.0.1

- **Heightened focus on authentication** with more stringent requirements surrounding MFA.
- **Advance encryption protocols** for data at rest and data in transit.
- **Increased focus on risk management and security monitoring** which includes anti-malware and security awareness training.
- **Access reviews** for use of system and application accounts.
- **Increased clarity** on roles and responsibilities through documentation, policies, and procedures.

TESTIMONIAL

"Our organization was looking for ways to redesign our payment acceptance processes to standardize and simplify PCI compliance. The ProCern team had the relevant experience to help guide us through the process from vendor selection to POC, to roll out. Their experience with scope reduction and knowledge of the solutions and options helped a Fortune 50 company navigate these complexities all while simplifying our future payment processes and compliance obligations."
