- Next-Gen [SAAS Delivered Security Analytics \(SIEM and UEBA\)](#)
- 24x7x365 MSSP by ProCern

Get The Most Out Of Securonix, 24x7x365, With Total Visibility

Securonix is not just wide, but deep, when it comes to features and capabilities. Simple logging and basic correlation is standard operating procedure. Security Orchestration, Automation and Response (SOAR) comes as a part of the core solution, with playbooks, case management, and remediation actions that can be triggered by the SIEM, and carried out by your other security toolsets. In addition, Securonix was founded as a User and Entity Behavior Analytics (UEBA) solution, then added advanced threat modeling, compliance mandate alerting and reporting, proactive threat hunting via MITRE mapping, and features an AI driven option. Are you taking advantage of everything Securonix can do?

Experience the power of next-generation cybersecurity with our industry-leading Managed Securonix SAAS solution, designed to provide real-time monitoring, advanced threat detection, and swift incident response for your digital ecosystem around the clock. Our team of dedicated security experts utilize a Securonix SAAS-based SIEM & UEBA solution to deliver the most value possible. With our 24/7 monitoring, triage, investigations, customized deliverables, and 100% client visibility methodology, you can not only trust in our expertise, but verify it. ProCern is here to safeguard your valuable assets and ensure the security and stability of your digital environment. ProCern's Managed Securonix Solution will fortify your defenses, protect your reputation, and drive growth with confidence.

What You Pay

- 500 EPS = \$50,000 / Year
- 1,000 EPS = \$85,000 / Year
- 1,500 EPS = \$115,000 / Year
- 2,000 EPS = \$140,000 / Year
- 2,500 EPS = \$165,000 / Year
- 3,000 EPS = \$190,000 / Year

Pricing requires a 36-month term, does not include installation, and monthly payment options are also available

CHALLENGES

- Lack of tool-set knowledge
- Ample staffing issues
- Set it and forget it not working
- Inability to mature the system
- An MSSP & SAAS-based SIEM is too expensive
- Too much noise!
- Too complex to customize

OBJECTIVES

- Retain Securonix expertise
- 24x7x365 security coverage
- Outsource the management
- Achieve what it can do
- See straightforward pricing to the left.
- Teach it what is normal
- Engineered to your needs

RESULT

97%

Clients realize more value from the system than before.

35%

Cost savings by consuming our SAAS MSSP tenant, compared to standard SAAS

85%

Average reduction in MTTD and MTTR to threats in client environments.

SOLUTION

Maximize Your securonix® Investment With ProCern

Gain around the clock coverage and deliverables to meet your needs

Realize the value expected pre-sale, with measurable ROI.

Meet and report on compliance mandates with ease.

Partner with ProCern today to meet and exceed the objectives listed above, at a fraction of the cost of doing it yourself. We are a tried, trusted, and awarded service provider for Securonix. We can take the heavy lifting of running your SIEM off your plate, and enable you to only focus on what matters, instead of daily care and feeding. In addition, we can achieve the value that Securonix is capable of delivering, no matter the time or day.

Don't be fooled by another SIEM vendor promising plug and play success or MDR services based on SIEM-like rule sets. Realize the actual solution you're looking for from providers that have been doing it for decades!

BENEFITS

24X7X365 EYES ON GLASS COVERAGE

Have you ever tried to staff a 24x7x365 operation? It is very hard and very expensive, even more so with security professionals. We can give you around-the-clock coverage for a fraction of the cost of doing it yourself.

UNFETTERED ACCESS INTO OUR WORK

No more MSSPs hiding behind certifications and saying "just trust us", verify! Our managed approach gives you, the customer, full visibility into what we do, how well and quickly we do it, and unfettered access into the system at all times.

SAAS, TRIAGE, TUNING, INVESTIGATIONS

These are only a few of the deliverables you can expect with our service. In short, we take all the heavy lifting of hosting and running a SIEM at its potential off your plate, from admin, to engineering, and false positive removal.

CONSTANT MATURING OF THE SIEM

ProCern understands that a SIEM is never fully deployed, too many things change, plus they're capable of so much. We strive to constantly mature Securonix, we even include out-of-scope engineering hours at no extra cost for all our clients.
